Duxbury Clipper

**THE BUCK STOPPED HERE:** Traffic was jammed from one end of Duxbury to the other on Route 3 on Tuesday morning, when a jeep collided with a deer trying to cross the highway. Two cars were involved in the accident, and both drivers were transported to the hospital with non-life threatening injuries. The deer, however, did not survive the crash, and was taken away in a pickup truck, presumably to become somebody's Christmas dinner.

### **Tinkertown Luminary Display**

The residents of Tinkertown will again be providing a guiding light for all the weary travelers on Christmas Eve. As in past years, the lighting of the luminaries begins at dusk on December 24. As many know, these luminaries illuminate all of the streets of Tinkertown transforming this tiny hamlet of Duxbury into an enchanted village.

This year, as in previous years, the residents of Tinkertown extend an invitation to all Duxbury residents to visit and enjoy this beautiful display. All are asked to drive slowly and safely while enjoying this holiday event. The Tinkertown Neighborhood Association wishes all a happy and healthy holiday season!
